

OPERATING & MAINTENANCE COSTS HAVE GONE UP. WHAT CAN YOU DO TO BRING THEM DOWN?

- 💧 Reduce or eliminate chemical costs
- 💧 Reduce costly maintenance & downtime
- 💧 Improve your operating system's efficiency and prolong its life
- 💧 Lower insurance costs for storage of chemicals

COOLING TOWER/EVAPORATIVE CONDENSER

TOWER TUBES BEFORE TREATMENT

SCALE REMOVED WITHOUT CHEMICALS

TOWER TUBES AFTER TREATMENT

PROTECT YOUR BOILERS & HEAT EXCHANGERS

Electronic Water Conditioner

*"I can't say...[enough] good things about your product.
...the best buy on the market."*

HARD WATER PROBLEMS?

Electronic Water Conditioner

BUILDING SYSTEM

- 💧 Non-Chemical
- 💧 No Maintenance
- 💧 Controls & Removes Mineral Scale
- 💧 Environmentally Friendly
- 💧 Saves Energy Costs \$\$\$

**Fully Guaranteed - Simple to Install
No Plumbing Required**

Electronic Water Conditioner

ELIMINATE THE NEED FOR HARSH CHEMICALS & REDUCE MAINTENANCE COSTS

UNIQUE BENEFITS

- 6-month, money-back performance guarantee
- 5-year manufacturer's warranty
- Prevents buildup of hard scale deposits
- Helps breakdown existing scale
- Reduces the need for harsh chemicals to clean equipment
- HELPS CONTROL ALGAE & BACTERIA:**
 - Scale inside pipes provides a breeding ground for bio-growth. As scale is prevented and removed by the LiquiPlus E.W.C., the bio-growth will be significantly reduced.
- HELPS PREVENT CORROSION:**
 - The need to use harsh chemicals for descaling is reduced.
 - Because bio-growth is reduced, it cannot attack the metal's surface as readily.
- Environmentally friendly
- Water proof & heat resistant
- Uses only 0.03 amps and operates on 12 volt DC or 110 volt AC

LIQUIPLUS E.W.C. ES-150

COMMERCIAL APPLICATIONS

- Boilers
- Powerwashers
- RV's & Mobile homes
- Ice machines
- Misting systems
- Coffee machines
- Steam tables
- Aquariums
- Greenhouses
- Carwash equipment
- Restaurant dishwashers
- Ultraviolet (UV) light systems
- Steam cleaning systems
- Jacuzzis, saunas & steam rooms

KEY EXAMPLE: Why is the LiquiPlus Equipment Specific Unit so important for boilers?

- Prevents boiler tube from scaling
- Improves heat transfer efficiency
- Less energy consumption
- Lower maintenance costs
- Less warranty claims
- Protects pump

PREVENT SCALE DEPOSITS ON BOILER HEATING ELEMENTS

HOW IT WORKS

Liquiplus is a "Physics-based Water Conditioning Device" that prevents scale deposits from precipitating from hard water. It does not remove minerals from the water and it uses no salt unlike water softeners. The LiquiPlus E.W.C. uses a complex modulating high frequency waveform to physically alter the sharp, barbed, interlaced crystalline structure of calcium carbonate and magnesium carbonate molecules in hard water. The result is a change in the natural characteristics of these minerals to precipitate, bind to one another and adhere to anything they comes into contact with.
