Electronic Water Conditioner

REDUCE OR ELIMINATE THE NEED FOR HARSH CHEMICALS & REDUCE MAINTENANCE COSTS

UNIQUE BENEFITS & FEATURES

- 💧 6-month, money-back performance guarantee
- 💧 5-year manufacturer's warranty
- 💧 Prevents buildup of hard scale deposits
- 💧 Helps breakdown existing scale
- 💧 Reduces the need for harsh chemicals to clean equipment
- 💧 HELPS CONTROL ALGAE & BACTERIA:
 - Scale inside pipes provides a breeding ground for bio-growth. As scale is prevented and removed by the LiquiPlus E.W.C., the bio-growth will be significantly reduced.
- 💧 HELPS PREVENT CORROSION:
 - The need for corrosive cleaning chemicals is reduced.
 - Under-deposit and MIC (microbial induced corrosion) is reduced.
- 💧 Waterproof enclosure & heat resistant cable
- 💧 Uses only 0.1 to 4 amps at 110 VAC depending on the model
- 💧 Environmentally friendly
- 💧 Quick payback period and **High Return On Investment**

HOW IT WORKS

Liquiplus is a "Physics-based Water Conditioning Device" that prevents scale deposits from precipitating from hard water. It does not remove minerals from the water and it uses no salt unlike water softeners. The LiquiPlus E.W.C. uses a complex modulating high frequency waveform to physically alter the sharp, barbed, interlaced crystalline structure of calcium carbonate and magnesium carbonate molecules in hard water. The result is a change in the natural behaviour of these minerals preventing them from precipitating, binding to one another and adhering to anything they come into contact with.

KEY EXAMPLE: Why is the LiquiPlus E.W.D. so important for boilers?

- 💧 Prevents boiler & chiller tubes from scaling
- 💧 Improves heat transfer efficiency
- 💧 Less energy consumption
- 💧 Lower maintenance costs
- 💧 Less warranty claims
- 💧 Protects pump
